

Microsoft Project 2010 and Microsoft Project Server 2010 Training Now Available on GSA

msProjectExperts extends most favored customer pricing to Government employees through new Government Services Administration (GSA) contract.

New York, NY, May 27, 2010 – Government employees now have immediate access to premiere Microsoft Project 2010 and Microsoft Project Server 2010 training from msProjectExperts, through Government Services Administration (GSA) contract –number GS-35F-0402W. msProjectExperts leads the market for Microsoft Project 2010 and Microsoft Project Server 2010 training offering the world’s largest selection of role-based on-site and open-enrollment training. msProjectExperts also publishes the world’s most extensive library of role-based books and courseware for Microsoft Project2010 and Microsoft Project Server 2010.

“We are very excited to be recognized as an MAS (Multiple Award Schedule) contractor for our Microsoft Project 2010 and Microsoft Project Server 2010 training courses,” said Jennifer Herman, VP of Client Services for msProjectExperts. “Because the GSA pre-negotiates the price, service level, and terms covering all of our Microsoft Project 2010 and Microsoft Project Server 2010 training, government agencies and employees can easily engage with us.

Going through the rigorous evaluation process required to be awarded a GSA contract is widely recognized as an affirmation of the quality and value of a company’s services. The GSA requires extensive documentation, including customer references, before awarding a contract. The GSA’s goal is to make the ordering process easier for government agencies while ensuring fair and reasonable prices from reputable companies. Interested agencies can access msProjectExperts’ GSA catalog and pricelist at www.gsaadvantage.gov, or at the [company’s website](#).

“This is very timely for us with the launch of the latest version of Microsoft Project 2010 and Microsoft Project Sever 2010 and our complete and comprehensive set of role-based courses to compliment any Microsoft Project Server 2010 deployment,” Ms. Herman added. “Over the past 9 years we have trained thousands in the private and public sectors in our open-enrollment and onsite customized courses. Our new GSA Schedule enables us to provide government agencies easy access to cost-effective high-quality training services for Microsoft Project 2010 and Microsoft Project Server 2010.”
